Company Profile

Kashyap Industries entered the Indian market in the year 2005. With our headquarters in Ahmedabad, Gujarat, we have spread our wings since we entered and become a trusted name in the Plastic Injection Moulding Machines industry.

Our state of the art facility is spread over a large area and fully equipped to manufacture a wide range of machines. These machines are sold under our Brand Name 'MK5'. Here we not only manufacture but also design, research and test the machines for various parameters like performance, safety, speed, energy consumptions and so on.

As the leading Plastic Injection Moulding Machine Manufacturer, we source the best materials to build highly efficient plastic moulding machines. Our machines are mainly used in automotive, mechanical, food and beverages, aerospace and other industries. Due to their application, these machines are built to be rugged, robust and durable even when used constantly.

We use the latest technology to operate our machines making them the most energy efficient and fully automatic high speed machines. A dedicated team of engineers and researchers are constantly working to improve the machines and make them future ready. With optimum performance and unmatched durability, MK5 has created a space for itself in the Indian market. With a fair share of international clients, we envision to change the way how plastic parts are delivered and manufactured. We desire to make our unparalleled quality and pricing available to clients around the world becoming a global brand.
